Sub[d]

(10) In the Triennial Forecast of June 1913 it has been stated that the maximum increase of recurring expenditure during the Triennium ending with 1915-16 would be about 4 10 Lakhs over and above the standard of 12 50 Lakhs and that the increase will be effected gradually so that it may reach the maximum at the end of the Triennium

(11) During the current year (the 1st year of the triennium) recurring expenditure to the extent of 2 30 Lakhs as noted in the margin have been sanctioned leaving only 1·80 Lakhs of a for fresh sanctions of exp[re]

(1) Expansion of Primary Edn	1 00
(2) Revision of scales of pay of 28 teachers	·79
(3) Increased grant to Aided Schools	39
(4) Miscellaneous	12
Total	2 30

(12) The present proposals (excluding the large scheme costing more than 8 Lakhs) involve an add[l] recurring expenditure of Rs 3,48,243 Out of this large amount only a sum of Rs 1·80 Lakhs is availa[ble]

NOTE—Contn sheet

GPB—60 000—7 11 1

137

as stated above, and there is no way in which the balance of Rs 1,68,263 can be found The present proposals cannot therefore be sanctioned without further increasing the limit of expre laid down in the Triennial Forecast + thereby upsetting the balance.

(13) Further it is respectfully submitted that if the full amount of Rs 180 lakhs is now permitted to be utilized, there will be no room for effecting any more useful reforms however pressing they may be Some of these are (1) Establishment of a local University (2) Establishment of public libraries (3) Improvement of technical and other special schools &c &c In the Triennial Forecast these items have also been taken into consideration in fixing the maximum limit of Rs 4 10 lakhs If these schemes have also to be taken up in the near future the permanent recurring expenditure required on account of them will be a further addition to the limit already laid down. The Triennial Forecast cannot therefore be followed during the first triennium itself with any degree of accuracy.

8/4/14 Briefly all schemes however profitable or desirable must have a limit What limit or the limit of your means We cannot borrow for ordinary State Expenditure - Loan taken is

any one of the Service Depts there are others which call for Equal if not more attention & no one can be accused of partiality for their respective claims on this head but we can't help feeling that we should support the proposal

H. E. Stocks

(15) The foregoing appx notes seem to have ignored the second paragraph of page 4 of the draft relating to financing arrangements.

(16) My only objection to the draft is that it perhaps provides for much more than the Depts will be able to utilize during the year. It is not good policy to make excessive flourish in the budget and provide huge grants only to record large lapses when rendering accounts. Only what is reasonably workable should be proclaimed, only money which can be economically & judiciously spent should be provided in the budget.

(17) While the F D will not object to the expenditure of money leading to ~~all~~ expansion of education and real improve-

137

in its quality it will strongly object to schemes which tend to raise expenditure in the Edn Deptt without an adequate return. Some of the schemes of the Dy Edn the total cost of which works up to the sum of Rs 3 48 242 mentioned in the draft have appeared to me of this nature and I have separately dealt with them.

(18) If the Govt are satisfied that the proposals ~~as the Chapel~~ involving expansion included in the Dy 's list (as opposed to proposals involving increase of pay to existing staff) can be carried out during the next year the draft may issue & the provision referred to in the draft will be made. Submitted to His Highness

(3rd)

P for order disposal

The Inspector General of Education has applied for a provision of Rs 3 48 242 in the Budget Estimates of 1914-15 to enable him to carry out the various schemes under consideration for the improvement of Primary Education in the State

2 The measures needed were discussed by me in person with the First Member of Council the Inspector General of Education and the Secretary for Education and Agriculture, and the scope of operations and expenditure, as explained in the draft order herewith submitted, was determined as a result of those discussions

Draft for approval

3 Schemes for which the Inspector General of Education now asks for funds are in various stages of consideration Some of them are yet due from him The First Member is of opinion that it is sufficient merely to pass an order providing for the funds requested without any elaborate explanation of policy &c in the order

Pages 9 & 10 of office note

4 The draft order was considered in Council who are of opinion (the First Member dissenting) that it is desirable to issue an order on the lines proposed in order to indicate the object and scope of the operations required to be undertaken

5 As compared with the neighbouring State of Travancore we are very backward both as regards proportion of the educated population and pupils under instruction In Travancore nearly 35 per cent of the population of school going age is stated to be at school, while in our State only half that number are under instruction I am therefore of opinion that it is our prime duty to adopt vigorous measures

(12

to promote primary education during the next three years

Draft for approval

6 The order may be graciously approved It will be communicated to the Inspector General of Education but will not be given publicity to otherwise as it is primarily intended for the guidance of the Department

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No 13273 / 687

Bangalore 14th April *1914*

From Rao Bahadur
M SHAMA RAO ESQ MA
Inspector General of Education in Mysore

To
C S Balasundaram Iyer Esq B A
Secretary to the Government of
His Highness the Maharaja of Mysore
Departments of Education & Agriculture
Bangalore

SIR

I have the honour to inform you that I have submitted various proposals to Government for the improvement of Primary Education and Normal Training in my letters Nos 9037/459 dated 21st January 1914 12509/650 dated 23rd March 1914 12508/649 dated 26th March 1914 10156/527 dated 5th February 1914 and 11754/614 dated 10th March 1914 I am not sure whether Government will be able to pass orders on all these proposals so as to make detailed provision in the next Budget which I understand is already under consideration I am not also sure whether the Government can find at once funds amounting to more than eight lakhs of rupees for the large scheme proposed in my letter No 12508/649 dated 26th March 1914, and I therefore beg that Government may sanction for the coming year the proposals contained in my other letters the scheme contained in my letter No

12508/649 dated 26th March 1914 being regarded as one to be worked up to in the course of two or three years as funds become available I request that provision as noted below may be kindly made in the next year's budget -

(1) For starting 1000 aided schools in villages at Rs 7 each per mensem (This office letter No 10156/527 dated 5th February 1914) Rs 84 000

(2) Revision of the Normal Schools (This office letter No 12509/650 dated 23rd March 1914) Rs 41 358 3/5

(3) Reorganization of the Maharani's College and District Girls' Schools (This office letter No 9037/459 dated 21st January 1914) Rs 20 884

(4) Besides these amounts a sum of Rs 60 000 is also needed for starting 200 new Government schools for girls Panchamas and others and a sum of Rs 1 25 000 for improving

(5) and strengthening the staff of the Primary and Secondary Vernacular Schools a proposition statement for the revision of which was forwarded through the Comptroller with my letter No 9144/563 of the 23rd January 1914 The recommendation for more Government schools and for funds for strengthening the number and improving the efficiency of the teachers of these schools is also contained in my letter No 12508/649 of the 26th March 1914 and is part of the larger scheme proposed there but

200

200 more Government schools for the coming year are urgently necessary as well as the expenditure of 1¼ lakhs on the improvement of the staff These items may therefore be also provided The sum of Rs 50 000 asked for in my letter No 11754/614 dated 10th March 1914 in connection with the introduction of compulsory education in fifteen selected places may be considered to form a portion of the 1¼ lakhs of rupees referred to above

In addition to the above named items allotments for strengthening the Inspectorate and the clerical staff in the several offices are also needed On account of the very large increase in the number and strength of schools at present as well as in the immediate future the present number of Inspecting Officers has to be increased by the employment of twelve more Assistant Inspectors with suitable establishments next year at a total annual cost of Rs 12 000 For the same reasons the clerical staff in my office and in the subordinate offices has to be strengthened and made more efficient and a provision of Rs 5 000 is required for this purpose

Summary - The total allotment required for the various items of expenditure mentioned above comes up to Rs 3 48 242 3/5

as

(4)

as stated below and may be kindly provided in the budget of next year -

(1)	For starting 1 000 Aided Schools in villages	Rs 84 000
(2)	For the revision of the Normal Schools	Rs 41 358 3/5
(3)	For the reorganization of the District Girls' Schools including the Maharani's College	Rs 20 884
(4)	For starting 200 new Government schools	Rs 60 000
(5)	For improving the existing Secondary and Primary Vernacular Schools	Rs 1 25 000
(6)	For strengthening the Inspectorate	Rs 12 000
(7)	do the clerical staff	Rs 5,000
	Total	Rs 3 48 242 3/5

I have the honour to be
Sir
Your most obedient servant

T. Shama Rao
Inspector General

Proceedings of the Government of His Highness the Maharaja of Mysore

Read -

Letter No 13,273/687 dated 14th April 1914 from the I G of Education in Mysore requesting that a provision of R 3,48,24 be made in the budget of the Education Department for the year 1914-15 for the development of educational activities in the coming year

(Print the letter in extenso as an Appendix)

ORDER THEREON

No 34-44 dated Bangalore 2 July 191
EDn 374-13-7

The total population of the State is about 58 lakhs and the population of school goirg age calculated at 15 per cent may be taken at 8 7 lakhs Of these only about 1 25 000 or about one-seventh are actually under instruction

The number of public schools both Government and aided is about 2,318 educating roughly 1 00 000 pupils and there are some 2 000 unaided indigenous schcols educating about 25 000 pupils

Amorg the adult population also, literacy is at a very low ebb The Census figures show that between the ages of 15 and 20, only 1.7 males per mille and 24 females per mille are literate and that among persons of the age 20 and over, th rate of literacy is 152 per mille among

(b)

males and 13 per mille among females

2 These figures emphasize the necessity for measures not only to train boys and girls more largely than has been possible in the past but also to place educational facilities within the reach of the adult population Government have therefore decided that the activities of the Education Department should be directed during the next three years to provide for the education of at least 4,00,000 pupils or nearly 46 per cent of the population of school-going age With this object, arrangements should be made to open about 4,000 new elementary schools during the above period in addition to continuation and other classes for the education of adults Of the new Elementary schools,1500 may be Government schools and 2500 aided school conforming to departmental standards and requirements

The existing indigenous schools in the State which, according to the imperfect information available number about 2000 should also be taken in hand in a spirit of sympathy and utilized to spread the rudiments of learning among the people

3 Any cpmprehensive organization for th development of primary education should include the following measures -

(i) Provision of more schools and their proper location

(ii) Adequate arrangements to train male and female teachers

(iii) Adapting education to the practical needs of the people and making provision for elementary, vocational, physical and moral education including education in business

2h/5

DO No E 2096/Edn GENERAL AND REVENUE SECRETARIAT

Dated Bangalore – 29 – Co – 1925 –

Dear Sir

I am desired to invite your attention to this Office letter No E 4362/Edn 3°3-22-6 dated 26th January 1925 and subsequent reminders requesting that the proposals regarding reorganisation of Adult Night Schools may be revised so as to reduce the cost by raising the number of pupils if necessary and to request ~~that the reply thereto may be kindly expedited, as the matter has been long pending~~ to be furnished by the 2nd / 3rd proximo.

Yours sincerely,

K Matthan Esq B A
Inspector General of Education in Mysore

(iv) Provision of continuation schools night schools, improvement schools lecturers and itinerant teachers to educate the adult population

(v) Arrangements for village meetings, reading rooms, supply of newspapers, &c , and

(vi) Arrangements for enlisting private enterprise to provide educational facilities to the grown-up populatior and to collect funds for the purpose

It will be the duty of the Educatip Department and the Education Committee of the Conference to develop operatiors on all these lines with the co-operation of the people and with the help of the o her Departments of Government wherever necessary

4 Steps should be taken to ensure as large and as regular an attendance of pupils as possible so that all schools ray be utilized to the greatest advantage Local committees and other available agencies should be induced to take interest in the proper working of the schools particularly to see that ~~all~~ my duty as public children of school-going age attend school In villages, the village committees should be made responsible for the attendance

The new schools to be started should include night schools open at convenient hours and continuation or improvement schools and weekly or bi-weekly classes in which adults both those who have passed through a school or who are entirely illiterate - may have opportunities of acquiring new knowledge

(8

5 Arrargements should be made for obtaining correct information about indigenous schools, for their periodical inspection by officers of the Education and Revenue Departments, for giving them help in the way of supplying of school appliances, books, etc , and for recognition of their work by suitable grants-in-aid on a far more generous scale than is done at present

6 Towards carrying out this policy, the Inspector-General of Education has already submitted proposals for starting 1000 more aided schools for boys and 200 new Government schools for girls, for panchamas etc , during 1914-1915, for enlarging the normal schools and increasing their efficiency and for strengthening the inspecting and clerical staff of the Department rendered necessary by the increase of work in the Department Orders have recently been passed by Government in the matter of the starting of 1000 aided schools, and the introduction of compulsory education in 15 selected centres, & the improvement of Normal Schools The other proposals submitted by the Inspector-General of Education are in various stages of consideration and orders will issue separately in respect of each of them

7 Adequate provision will be made in the State Budget for funds needed for the further development of Elementary Education in the State on the lines referred to in paragraph 3 above The Inspector-General of Fducation asks for Rs 3 48,242 for the year 1914-1915 to give effect to the

various schemes submitted by him in lieu of the sum of one lakh of rupees hitherto provided in the annual budgets for the expansion of Primary Educatior The Inspector-General of Education should be informed that the funds required to enable him to carry out this programme will be placed at his disposal as detailed schemes are sanctioned one by one This order is issued to guide the Inspector-General of Education in the preparation of detailed schemes by indicating generally the scope of operations and the limit of expenditure which Government are prepared to sanction for the development of Primary education

Local Fund and Sanitary (Education) dated 2nd July 1914

Letter No 13273—687 dated Bangalore 14th April 1914 from Rao Bhadur M Shama Rao Esq M A Inspector General of Education in My ore to C S Balasundaram Iyer Esq B A Secretary to the Govern nent of His Highness the Maharaja of Mysore Departments of Education and Agriculture Bangalore

I have the honour to inform you that I have submitted various proposals to Government for the improvement of Primary Education and Normal Training in my letters Nos 9037—459 dated 21st January 1914 12503—650 dated 23rd March 1914 12508—649 dated 26th March 1914 10156—527 dated 5th February 1914 and 11754—614 dated 10th March 1914 I am not sure whether Government will be able to pass orders on all these proposals so as to make detailed provision in the next budget which I understand is already under consideration I am not also sure whether the Government can find at once funds amounting to more than eight laks of rupees for the large scheme proposed in my letter No 12508—649 dated 26th March 1914 and I therefore beg that Government may sanction for the coming year the proposals contained in my other letters the scheme contained in my letter No 12508—649 dated 26th March 1914 being regarded as one to be worked up to in the course of two or three years as funds become available I request that provision as noted below may be kindly made in the next year s budget —

	Rs
(1) For starting 1 000 aided schools in villages at Rs 7 each per mensem (This office letter No 10156—527 dated 5th Febru ary 1914)	84 000
(2) Revision of the Normal Schools (This office letter No 12503—650 dated 23rd March 1914)	41 383
(3) Reorganization of the Maharanis College and District Girls Schools (This office letter No 9037—459 dated 21st January 1914)	20 884

Besides these amounts a sum of Rs 60 000 is also needed for starting 200 new Government Schools for girls, Panchamas and others and a sum of Rs 1 25 000 for improving and strengthening the staff of the Primary and Secondary Vernacular Schools a proposition statement for the revision of which was forwarded through the Comptroller with my letter No 9144—563 of the 23rd January 1914 The recommendation for more Government schools and for funds for strengthening the number and improving the efficiency of the teachers of these schools is also contained in my letter No 12508—649 of the 26th March 1914 and is part of the larger scheme proposed there but 200 more Government Schools for the coming year are urgently necessary as well as the expenditure of 1¼ lakhs on the improvement of the staff These items may therefore be also provided The sum of Rs 50 000 asked for in my letter No 11754—614 dated 10th March 1914 in connection with the introduction of compulsory education in fifteen selected places may be considered to form a portion of the 1¼ lakhs of rupees referred to above

In addition to the abovenamed items allotments for strengthening the Inspectorate and the clerical staff in the several offices are also needed On account of the very large increase in the number and strength of schools at present as well as in the immediate future the present number of Inspecting Officers has to be increased by the employment of twelve more Assistant Inspectors with suitable establishments next year at a total annual cost of Rs 12 000 For the same reasons the clerical staff in my office and in the subordinate offices has to be strengthened and made more efficient and a provision of Rs 5 000 is required for this purpose

Summary —The total allotment required for the various items of expenditure mentioned above comes up to Rs 3 48 242½ as stated below and may be kindly provided in the budget of next year —

	Rs
(1) For starting 1 000 aided schools in villages	84 000
(2) For the revision of the Normal Schools	41 383
(3) For the reorganization of the District Girls Schools including the Maharanis College	20 884
(4) For starting 200 new Government Schools	60 000
(5) For improving the existing Secondary and Primary Vernacular Schools	1 25 000
(6) For strengthening the Inspectorate	12 000
(7) Do the clerical staff	5 000
Total	3 48 242
